Justin,

On behalf of the entire Mortenson team I wanted to thank you and your team for being a Vital and Reliable trade partner in the completion of a very successful but difficult P611 Crab Island Security Enclave Project on Kings Bay Naval Base. This project pushed the boundaries on staging, scheduling, and logistics due to having multiple locations in Restricted Areas on Base, along with work on Crab Island with all logistics moving through a site in Fernandina Beach. Cumberland Services worked with the Mortenson team, providing suggestions and recommendations, as well as reliable and timely service for all project rubbish removal needs. The scopes of work included in this project produce large amounts of many different types of waste. Whether it was office trash, standard construction debris, scrap steel, or concrete and asphalt, Cumberland Services did not hesitate or skip a beat with our constant changing of removal needs.

I not only speak for myself, but for the entire Mortenson Team when I say Thank you to Cumberland Services for their professional and courteous partnership they provided in the successful turnover of the P611 Crab Island Security Enclave Project on Kings Bay Naval Base.

Sincerely,

Building what's next. SM
